VOLUME XXXVIII. NO. 80

SEYMOUR, INDIANA, FRIDAY, MARCH 28, 1919.

PRICE TWO CENTS.

PROPOSED PAVING OF MORE STREETS

Suggestion That Those Already Improved be Connected is Made by Some Property Owners.

COST OF MATERIAL IS FACTOR

However, a Decline in the Price of Cement and Steel is Expected in Short Time.

Suggestion that some of the streets connecting the improved streets be paved this summer has been made by a number of property owners who would be affected if such contracts were awarded. Such work was considered prior to 1917, but all such intentions were dispelled with the declaration of war on Germany and the resultant order of the war industries board which prohibited work of that character.

Some of the gravel streets which connect improved streets are in need of repair, it is pointed out by those who have suggested the improvement work, and they say this would be a good time to permanently improve them. Such contracts would have to be awarded by the city council and might originate either by petition from the property owners or from a resolution by the council.

It is stated that the principal objection to the work at this time is the cost of materials. However, it is pointed out, the war industries board has already ordered a reduction in the price of steel and the price of cement is to be lowered soon, it is believed. The price of brick, in case that material were used, is not greatly in advance of what it was before the war. Asphalt has never been used in this city for permanent street improvement as the council and property owners have believed that the cost of maintenance would be too high, in comparison with other materials.

Among the streets that have been considered in connection with the improvement work are Third and Fourth streets, between Chestnut and Walnut and also between Chestnut and Ewing which were improved with concrete several years ago. East and west streets between Chestnut and Walnut south of the Baltimore & Ohio Railroad tracks have also been mentioned.

The proposed improvements would provide employment for a large number of men and this would help to solve one of the biggest problems which the country faces today. Contractors who have been asked for an opinion as to the cost of the work, declare that they do not see much prospect of a material change in prices within the next three or four years at the earliest. The war industries board has taken up the matter of basic charges on some materials and the industries will proceed to manufacture them on this basis. The freight rates which are charged on materials for work of this kind also enter into the advisability of making such contracts now, but assurance has been given by the federal railroad administration that this matter is receiving attention and that it is endeavoring to co-operate with cities in public works and is ready to encourage them in every way possible. Lower freight rates on such materials as cement, steel and other building supplies will be forthcoming within a short time, it is promised.

The city council has never given the matter of street improvement serious attention. For until very recently, such contracts have been prohibited. However, it has been stated from time to time that some property owners desire the improvements made and are waiting for the opportune time to circulate the petitions for presentation to the council.

BALTIMORE & OHIO DINING CAR IS DAMAGED BY FIRE

Partition and Floor in the Kitchen Compartment Catch Fire From the Range.

That the Baltimore & Ohio Railroad has discovered the efficiency of the Seymour fire department is shown by the number of fires that are "wheeled" within close reach of the local fire station. Fire broke out on the dining car on No. 1, west-bound, due here at 11:30 o'clock this morning, and the car was stopped near the fire station. The flames started in the partition against the range in the kitchen compartment. The partition and part of the floor were damaged.

The car was set off here and was returned to Cincinnati this afternoon. Several weeks ago a passenger coach taking soldiers from St. Louis to Camp Sherman, O., caught fire and was brought here.

Although no definite information has been received here as to what Jackson county's quota in the Victory Loan campaign will be, the local bankers are of the opinion that the amount will be about \$602,000, or practically the same as it was in the fourth liberty loan drive. The total amount to be sold in the campaign which is to open next month is \$6,000,000,000, it is stated, and this was the amount of the fourth loan. On this basis, therefore, the local quota ought to be about the same as it was at that time, local bankers declare.

The appointment of a loan campaign chairman has not been made for this county. J. H. Andrews, who served as chairman in the previous campaign, has stated that it will not be possible for him to accept the position at this time. The appointment of chairmen for the seventh federal reserve district were made Thursday, and it is expected that the directors for the eighth district, in which this county is located, will be selected within a short time. WALTER HUBER REPRESENTS THIS COUNTY IN CONTEST

No Other School Entered Competitive Contest Scheduled Here This Afternoon.

Representatives of all high schools in Jackson county participating in the debates of the High School Discussion League were expected to appear at the local high school today to test their skill against that of Walter Huber, local representative, but inventory on the part of officials here find that there are no contenders aside from Seymour in the county. That very fact in itself establishes Huber county winner. He will represent Seymour in the district meet that is to be staged at the Shields High school two weeks from today.

Local judges figure that Huber will represent this district in the state contest at Bloomington, April 28. His discussion is said to be one of the best work of its kind ever given by a student in the Seymour high schools. At present he is working on delivery.

HALL AND STRANGE HUNGARY READY TO RESUME RELATIONS

Two Men Arrested Here Recently on Charge of Forgery Paroled From Reformatory.

BOTH ENTER PLEAS OF GUILTY

Parole Agent Advises That Both Be Tried in Circuit Court on The Local Charges.

That Chauncey Hall, of Indianapolis, who was recently arrested here for aiding in the passing of a check at the Seymour National Bank, is a paroled convict from the Indiana reformatory at Jeffersonville, is the information that was brought here this morning by a parole agent from that institution. It was the first time that the local authorities had been informed that Hall, who gives his age at nineteen, has a prison record. It is said that he has served time upon conviction for arson.

Claude Strange, also of Indianapolis, who pleaded guilty in the city court to passing the check, told the local police that he was paroled from the reformatory, but did not complete the story. The parole agent told the officials here that Strange had been paroled three times. He was convicted for forgery at Bloomington.

The agent under the law had authority to take the two men back to the reformatory for violating their paroles, but said that by good behavior they would be entitled to another parole after serving one year. He advised that they be tried in the circuit court upon the local charges. After they are entered in the reformatory on new charges they will have to serve their minimum.

ENOUGH SEYMOUR MEN AT BORDEAUX TO FORM CLUB

Cullen Barnes Writes He Has Seen Frank Montgomery—Herman Chambers and Others There.

Seymour is well represented at Bordeaux. A number of local men are in that French city, but not until recently did some of them know that the others were located there.

Corp. Cullen Barnes, who recently passed the entrance examination for entrance into the University of Bordeaux, has written his parents, Mr. and Mrs. Seba A. Barnes, that soon after he started his work there he met Frank Montgomery, son of Prof. and Mrs. Henry Montgomery, formerly of this city. Mr. Montgomery's parents now live in Hanover. He assisted Barnes in finding a room and a boarding house.

Besides these, Herman Chambers, who is manager of the Y. M. C. A. Hotel at Bordeaux and Walter Droege, also of this city, have been located in that city for some time. Mr. Chambers wrote to Mrs. Chambers that the Seymour men were together occasionally and that he was intending to give a supper for them at the Y. M. C. A. hotel in a short time.

In his letter regarding his university work Corp. Barnes said that the French instructor was giving a course of intensive training in French by which a student could master the language in a month's time. He has already picked up some knowledge of French and thinks he will be able to speak it fluently within a short time.

Foreign Minister of Soviet Government "To Defend Our Just Interests."

BUDAPEST CONTINUES CALM

Count Karolyi Says Change in Government Was Due to Entente's Imperialism.

(By Edward Bing, United Press Staff Correspondent.)

Copyright 1919 by the United Press

Budapest, March 28—"We are ready to continue peaceful and friendly relations with the allies if possible, but we will fight to defend our just interests," Bela Kun, foreign minister of the Hungarian soviet government declared in a statement to foreign correspondents today.

Count Karolyi, former premier, who turned the country over to the communists, reiterated in an interview his statement that the entente's imperialism was responsible for the change of government in Hungary.

"I will continue to work for the sacred cause of saving my country, with less responsibility, but with more energy," he said.

"The Austrian cabinet decided yesterday to recognize the Hungarian soviet government, according to an official dispatch received from Vienna today.

M. Bolgari, and F. E. Noyce have been accredited as representatives of the new Hungarian government in Vienna. The latter formerly was a lecturer on sociology in Clarke University, Worcester, Mass.

Budapest continued peaceful tonight. Even street traffic was undisturbed. Reports from provinces indicate that communion was organized quietly throughout Hungarian territory unoccupied by the allies, under the direction of local soviets.

Some hotels here hauled down the British and American flags when the revolution was first declared but the soviet government ordered that they be replaced immediately.

Col. Vix, head of the allied mission in Budapest and his staff have been courteously treated by the government, which guaranteed the safety of their lives and property as well as those of all neutral and allied citizens. The soviet government continues to issue a veritable torrent of orders. Every citizen has the right to refuse permission for any military or civil officer to enter his house. Every person is likewise entitled to dispose of his bank account by checks; not to exceed \$400 a month, however. All automobiles have been requisitioned by the government.

Neutrals will continue to receive the same food rations as formerly. Other food distribution measures remain valid. The government is preparing to communize houses and flats, but houses belonging to neutrals and allied citizens will not be touched except under special orders from Foreign Minister Bela Kun.

The Russian soviets are keeping in touch with Budapest by wireless. Today they claimed the revolution is sweeping over Galicia and that the Red armies have won important victories in the Ukrainian. They also reported successful advance of Bolshevik forces toward Lemberg.

TWO LADS ATTEMPT TO JUMP DITCH AND COLLIDE MID-AIR

Harold James and Maurice Burns, High School Students, Stage Unusual Exhibition.

Harold James and Maurice Burns, two young men from the Seymour high school, collided in mid-air this afternoon directly over a ditch half full of water and sprawled out on all fours in one of the neatest exhibitions of ducking ever given in this locality.

The two boys in company with several others from the high school were walking along Peter's ditch, west of the city, about two o'clock this afternoon when it suddenly occurred to the "gang" that there was adventure and fun, in jumping back and forth across the ditch. Unfortunately James and Burns, on opposite sides, planned their departure from terra firma at the same time. They met head on right over the middle and dropped at into the mud and water in the bottom.

BOLSHEVIKI ARMY AGAINST AUSTRIA

Premier Lenine Reported to Have Offered \$20,000,000 for Such a Movement.

WORD COMES FROM BUDAPEST

Radicals in Germany Have Taken Industrial Matters Into Their Own Hands.

(By United Press.)

Berlin, March 28—Premier Lenine has wirelessed the Hungary soviet government, urging that it send a bolshevik army against Vienna, according to a dispatch received from Budapest today. He is said to have financed a Hungary expedition against Austria to the extent of \$20,000,000.

Discovering that Spartacans plan to arm several thousand imprisoned Russians tomorrow, Americans rushed the prisoners aboard trains and are scattering them in prison camps throughout Germany in charge of Americans. This action is believed to have nipped a bolshevik plot to follow Hungary in declaring a soviet republic.

Radicals in other parts of Germany have begun to take matters in their own hands. In Wurttemberg, they have declared a general strike to force the government to accept socialization of industries. Liepsig is said to be under the dictatorship of five communists. The Bavarian government has ordered factories in that state to begin production on a communistic basis. Soviets in Saxony have ordered the factories there to begin communizing the same as in Bavaria.

"A STRENUOUS LIFE" TO BE SENIOR CLASS PLAY

Graduating Class Will Hold Usual Activities Before School Closes, June 1.

In view of the fact that the local high school will close June 13 one week ahead of the time planned, immediate action has been taken to complete the Senior activities in full form. "A Strenuous Life" has been chosen after due consideration as the most suitable class play and steps to select and coach a cast will be undertaken soon.

Work on the "Patriot", the high school yearly publication, is progressing at a rapid rate. The art department is reported to be leading with its work. It is believed that the Annual will be ready for publication late in May.

RUSSIA IS FACTOR AT PEACE COUNCIL

Indicated That New Russian Policy Will Be Framed in Very Short Time.

NEW INFORMATION IS GIVEN

Special American Representative Finds Conditions in Fair State of Organization

(By United Press.)

Paris, March 28—Russia is again taking a prominent place in the peace discussions, it developed today.

Though the Russian situation has recurrently appeared, its present injection is believed to be more important and significant than any time heretofore. There seems to be a possibility that the near future will see the framing of a Russian policy—something the peace conference has not had since its inception, and lack of which has been a constant source of embarrassment in considering dealings with Germany.

William F. Bullitt, special investigator for the American delegation is understood to have brought back from Russia a picture of conditions that has come out of that country in months. He is said to have found a surprising state of organization in the interior compared with reports that have been received.

The more conservative wing of the Russian radicals is said to be

In order to encourage the construction of public works the railroad administration has rescinded the order issued July 29, 1918, which prohibited railroads from cooperating in local improvements unless they were of imperative necessity. The railroads are now endeavoring to promote such work by joining with cities, or local improvement projects. Many cities where improvements were contemplated had delayed work upon the ground that the railroads had refused to assume their share of the burden.

The home garden is profitable, for one reason, because it saves the cost of vegetables that otherwise would be bought. It is a healthful enterprise. It furnishes excellent outdoor exercise. It provides vegetables that are fresher more palatable and better than many to be had in the market.

The home-garden vegetables are always available to be had not only without expense, but without inconvenience. Therefore, they are likely to be used more freely than if a trip to market or even a telephone call were necessary.

But there is still another particular in which the home garden confers a great benefit. The boy or girl who is given a part in cultivating a home garden, who is charged with some of the responsibilities and put to solve some of the problems of cultivation, acquires in the process a spirit of self-reliance, a knack of making the means at hand serve the end desired, that will be valuable throughout the rest of that boy's or girl's life in any kind of service that may be required. Thus the home garden is a training school in personal efficiency.

JAPANESE VALUE THE GOOD FEELING OF AMERICANS

Better Understanding Between Two Nations Removes Antagonistic Attitude.

By United Press.
Tokio, March 28—The Japanese people, beyond a doubt, consider the more friendly feeling which has grown up between their country and America as one of the most important and most welcome of all the by-products of the war. Accordingly, each bit of evidence of better feeling and understanding on the part of citizens of the United States is regarded with no little satisfaction. The following, from an editorial in the Asahi, one of the most influential newspapers of the Japanese capital, is a sample:

"According to a report recently received from Honolulu, a judicial authority in Hawaii openly declared in the course of his explanation regarding the new American naturalization law, that the Japanese subjects enlisted in the American army should be legally granted the right to naturalize and become American citizens. The fact is an indication of a great change in the public opinion of America, which was formerly antagonistic regarding the naturalization of Japanese."

"Another sign of pro-Japanese sentiment in America is the reported proposition to revise the alien land law of California. According to a report from San Francisco, a bill is to be presented shortly before the California legislature regarding the extension of the leases granted to the Japanese farmers in the state, who, since the promulgation of the present alien land law in 1913, have been suffering from great disadvantages due to the extremely short tenure of their lands. In fact, until recently, no one could imagine that such a radical change of public sentiment could possible take place in California, which was regularly regarded as the hotbed of the anti-Japanese propaganda in the United States."

"Japan is now going to propose as one of her peace terms the recognition of the equality of races, and we are exceptionally pleased that the proposal may possibly be accepted by the allied leaders, especially by President Wilson and other American delegates who are exerting themselves for the establishment of a League of Nations based upon the spirit of righteousness and universal brotherhood. The growth of friendly feeling toward the Japanese in America is welcome, as with this at their back, the leaders of Japan may be able to act faithfully and fearlessly in accordance with their convictions and faith."

FRANCHISE LEAGUE PROGRAM ONE OF UNUSUAL INTEREST

Mrs. Carrie Chapman Catt, Mrs. Maude Wood Park and Others Will Speak.

The program for the eighth annual convention of the Woman's Franchise League in Indianapolis April 1-3 promises many features of interest to delegates and visitors to the convention. Foremost among the speakers listed on the program are Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association, Mrs. Maude Wood Park, of Washington, chairman of the congressional committee of the National Association, Mrs. Raymond Brown and Mrs. F. Louis Slade of New York. Mrs. Park and Mrs. Slade, although well-known to Indiana women, because of the prominent part they have taken in national suffrage activities, have never before spoken in this state, and their coming is eagerly awaited. In addition to her work for suffrage, Mrs. Slade served as chairman of the Overseas Personnel Department of the Woman's Division of the Y. M. C. A., and upon her bureau rested the entire responsibility of passing upon women and girls who were to serve at the front.

Tuesday afternoon, April 2, is called an afternoon of achievement, when the convention will open with reports from the state officers. Messages are to be read from Indiana suffragists now serving in France, and Mrs. Raymond Brown, director-general of the Woman's Overseas Hospitals will tell of the work of the hospitals.

"Finish the Fight" is the subject of Mrs. Carrie Chapman Catt's address for the Tuesday evening meeting, when Governor James P. Good-

rich will make the address of welcome.

Reports of various state committees, including the congressional committee, the petition and membership drive, the legislative and the press bureau will be given Wednesday morning, while the afternoon will be devoted to a conference on how to hold the branch leagues together, led by Miss Carolyn Shoemaker of West Lafayette, Mrs. Isaac Beitman of Wabash, Mrs. Olive Beldon Lewis and Miss Sara Lauter of Indianapolis, Mrs. Alice Foster McCulloch of Fort Wayne, and Mrs. Charles J. Gill, of Muncie.

The election of state officers will take place Wednesday, although the result will not be announced until Thursday morning.

The annual convention dinner is to be given in the Riley room of the Claypool Wednesday evening. The program for the dinner has not yet been announced, but something new and interesting is promised by the committee in charge.

"The Ballot—its Price and Privi-

lege" is the subject for a general conference Thursday morning. Under the head, "The Price, Responsibility for Others," Mrs. F. Louis Slade will explain the plan of voters' schools which were successfully conducted in New York. Reports of the Americanization and Woman in Industry committees will be given and plans for future work discussed. Miss Helen Benbridge of Terre Haute will lead the discussion of how far the organization should support political parties. The convention will adjourn at noon Thursday.

John Scheidt, Fred Niemoeller and George Scheidt, who went down to Camp Taylor a few days ago to see a relative, Martin Scheidt, were fooled. It seems that the Misses Edna and Rachel Gerdon, of Seymour, cousins of Private Scheidt, hearing of his sickness and that he was in the hospital took a notion in their heads also to go down to the camp and see how their cousin was getting along. They beat the

local people a couple of hours to the hospital. Scheidt was found to be much improved by them and the three of them concluded to go to Louisville and see how the old town looked. The Columbus party arrived after the departure of the trio. The entire day was spent in trying to find the young people but to no avail. John Scheidt when he returned home said, "Oh well I was glad to know the boy was well enough to get out with the girls." He does not know even now that the young ladies were the Seymour cousins of Private Scheidt.—Columbus Herald.

Soldiers' Letters

In France.

Mrs. Thomas Whitson received the following letter from her son, Sergt. Rex Whitson. Sergt. Whitson has been in France since last October and evidently has no kick coming about "La Belle France."

Jeanette, France,
March 4, 1919.

Dear Mother, Dad, and Everybody: Well folks after an elapse of about ten days I will again endeavor to drop you all a line or two. To begin, I am on my first lap home. We pulled out of Pierrecourt last Friday afternoon and hiked over to Champlitte where we boarded our train to the coast. The hike was a short one and we made it in about an hour and a half. We were loaded on a regular American train at Champlitte but it was of the box car variety. At that it was a whole lot better than the Frog, or French trains that we traveled in heretofore. We left Champlitte about 7 o'clock headed for the coast with the information that Bordeaux was our destination and that it was from there that we would sail for the U. S. A.

Our trip was fine, without a mishap and lasted three nights and two days. On our journey we came from, you might say, northern France to southern France. It is much warmer here, regular California weather with oranges, lemons and all kinds of other fruit growing all around. You can not imagine how much better it makes a fellow feel. Why, Mom, I feel like a two year old just running over with "pep."

After going through a great number of towns on our trip we came to Bordeaux about midnight Sunday where we found that we were to go to a little place about twelve miles south to wait until there was room for the 82nd Division as there are about forty or fifty thousand troops here ahead of us waiting to sail.

Well this little town called Jeanette is a dandy little place, clean as a pin with orange and all kinds of trees in bloom. Everything is blossoming, all is green and it is no wonder that a fellow is feeling good and then too we know that we are on the way home. I tell you it is great.

I slipped one-over on the boys not long ago. I went up to an old French lady and told her I wanted a place to "coshay." That is I wanted a place to sleep. Mom, I wish you could see my room and above all by bed! Honestly I can hide in the feather tick because it is about three feet through it. I have nice white sheets, white pillows and the old lady brings me up a big bowl of Tot water every morning with a towel and soap. I tell you it's got any bed skinned in any hotel I ever slept and the beauty of the whole thing is it costs me only 1 franc a night, eighteen cents, and it is worth two dollars for you could not duplicate it for that sum anywhere in the states. Ask Willis, he will tell you. I can't begin to describe it. I suppose he is home now or will be by the time you receive this letter.

When I got my room I went and told "Fat" Reynolds about it and right away he fell in love with the place so I talked the old French lady into letting him occupy it with me. If you see any of his folks tell them that he and I are again "bunkies" same as we were when in school at Clamency.

Well Mother that day that we have looked for is almost here and you can look for me sometime in the latter part of April or the first of May. We are the third Division to leave France in April so I think we will get out of here some time between the 15th and 20th of the month. That will put us in the States not later than the last of the month. After that I figure I'll be mustered out in about ten days or two weeks. So you can judge by that what time I'll be home.

I sure am anxious to see all of you and be back with you again. Give my very best regards to everybody as I will be home "toot sweet." Now everyone take real good care of themselves for I'll be there when the roses bloom in the spring.

From your son and brother,
Sergt. Rex M. Whitson.

234 BILLS OF LEGISLATURE BECOME INDIANA LAWS

Eleven of The Measures Provide for
Appointments by The
Governor.

By United Press.

Indianapolis, March 27—Two hundred and thirty-four bills of the recent general assembly become laws with or without the governor's signature the first one of which was the one appropriating the legislature expenses and the last one providing for a clerk of the probate court of Indianapolis.

This was shown today in a list of

bills signed which was prepared by Charles Kettleborough director of the legislative reference bureau. The lists are being mailed to all of the 150 legislators.

Besides these bills there were nineteen joint resolutions and seven concurrent resolutions. The first joint

resolution endorsed federal woman suffrage and the last one would amend the state constitution provided that legislative apportionment shall be based on the number of votes cast at the last preceding election for the secretary of state.

Eleven of the bills provide for

gubernatorial appointments either of commissions or of state departments.

MERCHANDISING EVENT HELD IN THIS CITY IN YEARS

**Thousands of Pairs of Strictly Up-to-Date Shoes, Pumps and Oxfords
for Men, Women and Children Are Going at Prices Far
Below Their Wholesale Cost Today.**

It Is Positively The Most Genuine Money Saving Opportunity Seen In Seymour Since High Shoe Prices
Came Into Existence

The stock has been placed in the hands of J. M. Costello & Company Merchandise Brokers of The Rockefeller Building, Cleveland, Ohio, With Authority to Place it on Sale at any price that will reduce it one half in ten days to raise cash quick, and no half hearted price cutting methods are being employed to accomplish the undertaking.

THIS IS NOT A SALE OF ONLY A FEW ODD SIZES AND UNDESIRABLE STYLES
THE ENTIRE STOCK IS ARRANGED IN THE MOST GIGANTIC AND COMPLETE DISPLAY
OF RELIABLE UP TO DATE FOOTWEAR EVER SEEN LAID OUT ON BARGAIN
TABLES AND RACKS IN THIS SECTION OF THE STATE AT SUCH SMALL PRICES

You can easily examine the values and pick out the styles you want before being fitted and every department is loaded down with bargains that appeal irresistibly to people of sound judgment.

HUNDREDS OF FAMILIES HAVE BOUGHT FOUR, FIVE AND SIX PAIRS OF SHOES,
PUMPS, SANDALS AND OXFORDS FOR MEN, WOMEN AND CHILDREN IN ORDER TO
ESCAPE THE HIGH PRICES THAT PREVAIL EVERYWHERE ON FOOTWEAR OF
SUCH WELL KNOWN QUALITY

The people know where they can buy the cheapest, where their money will go farthest, that is why the thousands have been here from all corners of the city and surrounding country and why thousands more will come Saturday, Monday and Tuesday before this great sale is brought to a close. We said these would be the greatest shoe bargains seen in years and the people have found it to be so. They know now that we told them the truth and the good news is traveling on from one neighbor to another. Already it is a record breaking sale.

YOUR SAVINGS HERE ARE NOT OF PENNIES BUT SAVINGS OF ACTUAL DOLLARS

If you value true economy don't let this opportunity get by without taking advantage of it. Money saved is as good as money earned, and Remember Easter Sunday is not far off now and everybody will want new shoes. Make a memorandum of all the sizes your family will need for months to come and get here before next Tuesday night and save yourself a worth while sum of money. You can't afford to stay away.

Will Their Happiness Continue After You're Gone?

Only three men out of one hundred leave their families enough to live on, according to the court records. That is, as much as \$10,000.

Eighteen men out of every 100 leave a home but no income to their families.

And out of every 100 married men who die, 35 of them do not leave a dollar of property to their wives or children.

A few men are unfortunate—many more are improvident.

It does not take a great amount for a man to get in the first class—those leaving \$10,000—the saving of \$3 a week from the time a man is 25 until he is 55 will do it.

But whatever you do, get out of the class that leaves the wife and little ones without a dollar. Start a savings account at the Jackson County Loan and Trust Co. and you will soon be well on the road, so that you need not fear for the future.

The Bob Owens bloodhounds, now owned by Martin and Crawford, Bedford, have been working overtime lately. Between calls to track local jail breakers and evildoers in Lawrence county and calls into various sections of the state the pups scarcely have time to complete the second of the customary three circles preparatory to lying down for a short snooze when they are called out again. Wednesday night a call was put in for their services in tracking a smokehouse thief near Bridgeport where numerous minor thefts have been recently perpetrated.

While the contracting parties were ranging over the cost of employing the hounds another call came from Heltonville where a flour mill had been entered and four sacks of flour taken. The hounds were immediately dispatched to Heltonville but up to Thursday noon were reported unable to strike a trail.

Pee-Gee Flatkoatt

The Modern Finish for Walls and Ceilings

Great changes have taken place in recent years as to the interior decoration of Walls and Ceilings. Color, Harmony, Simplicity and Sanitation, are demanded. Antiquated wall paper and other dust and germ catching material have been successfully replaced by PEE-GEE FLATKOATT, the modern economical, sanitary, washable Flat Oil Finish. It is soft and velvety in appearance and affords every possible color combination.

It is more artistic, durable and economical than any other decorative material. When soiled, it can be easily cleaned, thus saving the expense and inconvenience of frequent redecorating. This feature alone is one of the greatest advantages over wall paper, kalsomine, etc., and for this reason PEE-GEE FLATKOATT is extensively used in public and private buildings.

"Tuning Up" The Motor

YOU have noticed, of course, that there is a big difference in the way that automobiles run. Some of them get over the ground, but the motor "misses" and the power is unsteady and jerky. The driver never knows just how his car is going to behave.

Then there are other cars that fairly "skim" over the roads with the soft, purring of the motor. You have noticed that such cars respond promptly and easily to the touch of the driver. There is always plenty of power for speed and hills.

The difference in the machines is the way they are adjusted.

Our mechanical experts know just what your car needs so that it will run with the responsive, purring sound.

Mr. A. H. Wagner, who served the government as a motor expert during the war, is at the head of our mechanical department. He has a personal knowledge of all makes of cars and can tell you just what is wrong with your machine.

On March 24 we will have two new mechanics so that your work can be done promptly. Bring your cars around and let us inspect them for you.

UNIQUE WALL MADE OF STONE FROM OLD CELLAR

Marble Slab Placed on Wall to Mark the Original Farm of the Late James Shields.

A stone wall which has been erected by M. S. Blish along Chestnut street at Woodstock Gardens, north of here, is unique in that it is constructed of blocks of stone which formed the walls of the cellar at the old Laupus building, Jeffersonville avenue. The Laupus property was purchased by the Blish Milling Company and will be used later by the mill. When the house was removed Mr. Blish was confronted by the question of how to dispose of the stone in the cellar walls. It is said that there were fifteen car loads of stone in the basement. It was quarried east of here and shipped to this city in the early sixties.

Mr. Blish has constructed a wall of the old English type on the east side of Woodstock Gardens and in the center of the wall has placed a marble slab which becomes a marker for the James Shields farm. The wording on the slab is as follows: "Woodstock Gardens. Part of the original farm of James Shields who settled here in 1808 and was the stockade keeper for the settlement. His nephew General John Tipton, United States Senator and famous Indiana fighter, and his son, Capt. Meedy Shields, founder of Seymour, spent their boyhood here." Above the slab is an attractive brick arch.

Rengo Belt

Reducing Corsets

Are Economical

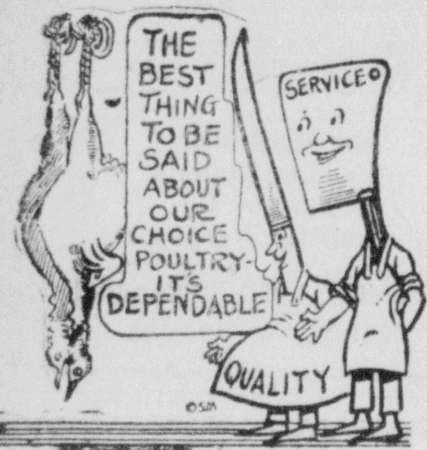

No reducing corsets are so truly economical, so long-lived or so satisfying as these extra-strong garments.

The Rengo Belt feature of tailoring has become famous among medium and stout women, because it solves the problem of retaining shapeliness where the greatest strain comes over the abdomen and hips. Note the exclusive method of boning this portion of the garment, then wear one Rengo Belt model—you will find your first supreme corset satisfaction.

Models for every figure—some with steel elastic webbing for greater freedom—all with double watch spring boning.

Prices for Rengo Belt Corsets Range from \$2 to \$10.

DOING HER BIT

"More than a year ago I took a course of Mayr's Wonderful Remedy for gall stones, severe colic and stomach trouble and have been entirely well ever since. I have recommended it to many other stomach sufferers, as I felt it was my duty to tell them just how much good it has done me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by "Druggists Everywhere".

Ugly, Unsightly Pimples Are Signals of Bad Blood

Give Heed to the Warning.
Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, scaly eruptions and other skin disorders that burn like flames of fire. They mean that your blood needs S. S. S. to purify it and cleanse it of these impure accumulations that can cause unlimited trouble. This remedy is the greatest vegetable blood purifier known, and contains no minerals or chemicals to injure the most delicate skin.

Go to your drugstore, and get a bottle of S. S. S. today, and get rid of those unsightly and disfiguring pimples, and other skin irritations. And it will cleanse your blood thoroughly. If you wish special medical advice, you can obtain it without charge by writing to Medical Director, 29 Swift Laboratory, Atlanta, Georgia.

LESSON XIII, MARCH 30

SUNDAY SCHOOL LESSON

REVIEW.

GOD'S HAND IN A NATION'S LIFE.
Selections for Reading—John 24:14-28.

Golden Text—Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34.

PRIMARY TOPIC—How God led his people (Psalms 77:20).
JUNIOR TOPIC—Recognizing God's leading.
INTERMEDIATE TOPIC—Evidences of God's guidance.

Since Israel was a theocratic nation, perhaps the best method of review will be to trace God's hand in that nation's life. Israel was led, fed, clothed and disciplined by God.

Lesson I. God's hand is clearly discernible in the experiences of Israel in Egypt. Israel was to be the religious teacher of the world, therefore the nation must sojourn in Egypt, the most advanced in learning of any nation at that time. In order that Moses the great lawgiver might be equipped with the best possible education God used Pharaoh to oppress the people. This oppression served a threefold purpose: (1) It served the testimony to the Egyptian nation that the living God was the God of Israel. The more they oppressed them, the more they multiplied. (2) It served a beneficent purpose in bringing the nation into its own. It required the crucible of suffering to bring humanity into its own. (3) It made the nation willing to leave Egypt and go to Canaan, the promised land. Had not the band of oppression been upon them they would have chosen to remain in Goshen.

Lesson II. When Israel was ready to go to Canaan God had a leader ready for the difficult task. His parentage, education at his mother's knee and at Pharaoh's court, and communication with God in the desert of Midian had equipped him for this work.

Lesson III. Though enslaved by a powerful nation, God undertook freedom for Israel, and by ten telling strokes—the plagues—he tore the shackles from their hands and set them free. The Passover is a memorial of that blessed deliverance.

Lesson IV. God opened the Red sea

and made a path of safety for Israel to cross, but overwhelmed Pharaoh and his hosts in the sea.

Lesson V. Israel bitterly complained when they faced the wilderness without food. God sent them manna and quails. The manna did not fail them until they came into Canaan.

Lesson VI. God sent Jethro to give needed counsel to Moses. The strength of Moses was about to break. God took one outside of the commonwealth of Israel and through him communicated the wisdom which Moses needed to save him from collapse through overwork.

Lesson VII. At Sinai Israel is organized into a nation, and the ten commandments are given as their constitution. In this constitution is clearly set forth man's duty to God and his obligation to his fellow men.

Lesson VIII. God's hand is seen in his burning anger against the nation for turning away from him to worship the golden calf. He is a jealous God; he will not tolerate a rival.

Lesson IX. Through unbelief the spies are sent to search out Canaan. When they were urged to take possession of the land according to God's promise they rebelled. Because of this failure God caused them to wander in the wilderness for 38 years.

Lesson X. When God's disciplinary measures had run their course the people were back again upon the borders of Canaan. Joshua was chosen by God to lead the people, as Moses' time to depart had come.

Lesson XI. In the cities of refuge God provided that revenge should not take the place of justice.

Lesson XII. Before Joshua's death God through him set forth the conditions upon which the nation's welfare could be maintained, namely, whole hearted obedience to God and separation from their wicked neighbors.

Lesson Text for Sunday, April 6.

TECHNICAL AGRICULTURE OFFERS WORK TO MANY

These Lines Are Particularly Suitable For Retrained and Disabled Soldiers.

Washington, March 28—Technical agriculture offers thousands of positions as associates, assistants, helpers, extension workers, and county agents, and this work is particularly suitable for retrained, disabled men, according to a statement issued by the federal board for vocational education today.

These positions serve as stepping stones to higher promotions and better compensation in the near future, not only in the agricultural colleges, experiment stations, agricultural extension service, and in state efforts at agriculture. These institutions and employments lost thousands of men from their student bodies, their faculty, and their staffs. Hundreds of men formerly agricultural extension workers and agricultural county agents will never return to those occupations. These places were temporarily filled by unprepared substitutes who will be replaced by trained men as rapidly as they are procurable.

The experience abroad wherein opportunity was given to study the intensive and scientific agriculture of France and other countries has greatly stimulated interest in these lines, and disabled men with a background of agricultural experience are manifesting keen interest in training for the lines mentioned. Many others

who, by reason of their disabilities, are compelled to equip themselves in other lines, and preferably for out-of-door occupations, are also manifesting keen desire to take up the specialized branches of agriculture in the training offered by the federal board.

Frank and George McGannon, of Paris Crossing, are here spending the week-end with their aunt, Mrs. Emma McGannon.

PIMPY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 40c and 25c per box. All druggists.

Before The Advent Of Woman's Gladness

Women Who Know Take Precaution Against Suffering.

Before the arrival of the Stork, women for over half a century have learned the wisdom of giving nature a helping hand. Nausea, nervousness, bearing-down and stretching pains in the abdomen and muscles are entirely avoided by the use of Mother's Friend, according to the testimony of thousands of mothers who have used this time-honored remedy.

Mother's Friend lubricates the fine network of nerves beneath the skin, and by regular use during the period the muscles are made and kept soft and elastic. They can then expand gently and easily when baby is born and pain and danger at the crisis is naturally avoided.

Mother's Friend is a preparation of penetrating oils and other medicinal agents prepared especially for expectant mothers. It is for external use, is absolutely safe and should be used regularly during the entire period before baby comes.

Write to the Bradford Regulator Company, Dept. A, Lamar Building, Atlanta, Georgia, for an interesting Motherhood Book, and obtain a bottle of Mother's Friend from the druggist. You will find it the greatest kind of help.

gaining control and establishing the general situation.

As an instance of the order prevailing in the interior, trains are running on regular schedule leaving and arriving on the minute between Petrograd and Moscow.

Peasants, having gained the land, are understood to be joining the more conservative elements.

Bullitt spent a week in Petrograd without being endangering; traveling from there to Moscow. He has made an informal report to a sub-committee which is drawing up a formal report for presentation to the conference. He has no authority to negotiate, acting merely as an observer. His report, however, will have the greatest bearing on developments, and sentiment is rapidly swinging back to the idea expressed early in the conference—that world peace is impossible without dealing with the Bolsheviks in some way.

Such Women Just Have to "Give Up"

"Man may work from sun to sun, but woman's work is never done." That's why women are overworked, nervous, all run down, no appetite, and can "hardly drag around." Vinol creates a hearty appetite, strengthens the digestive organs, induces sound sleep, invigorates the nerves, and in this natural manner creates working strength.

Narragansett Pier, R.I.

"I was all run-down, back ached, and tired all the time. I keep house for my husband and four children and could hardly keep around. Finally I tried Vinol and it has restored my health and helped me wonderfully, so I recommend it to others who are in this condition." Mrs. Hannah Randall.

Jacksonville, Ill.

"I keep house for my little family, but got into a weak, nervous, run-down condition, tired all the time and no ambition. My doctor told me to try Vinol, and in a week I felt like a new person. I am now strong again, look after my baby, and do all my housework."—Mrs. G. H. Lamson.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

CHAPTER XXV.

Smudge.

From her tent, where she was writing a letter that lagged somehow, Innes Hardin had seen Rickard go to her sister's tent. She did not need to analyze the sickness of sight that watched the dancing step acknowledge its intention. It meant wretchedness, for Tom. At a time when he most needed gentleness and sympathy rasped as he was by his humiliations and disappointments—how could any woman be so cruel? As for Rickard, he was beneath contempt—if it were true, Gerty's story, told in shrugs and dashes. She had jilted him for Tom; and this his revenge? She had not known that she had such feeling as the thought roused in her. It proved what the blood tie is, this tigerish passion sweeping through her, as her eyes watched that closed tent—it was for love for Tom, pity for Tom. Sex honor—why, Gerty did not know the meaning of the words!

How long would it be before Tom would see what every one else was seeing? What would he do when he knew? Hating Rickard already, bitter as he was—

She was not so biased as he. She

could see why Marshall had had to re-organize. Estrada had shown her; and MacLean. Her sense of justice had done the rest. Rickard had proved his efficiency; the levee, the camp, the military discipline all showed the general. Whether he were anything of an engineer, time would tell that. It was a long call he was making! Suppose Tom were to come back? She must watch for him—make some excuse to pull him in if he should come back before that other went—Hateful, such eavesdropping! A prisoner to that man's gallivanting!

For an instant she did not recognize the figure outside Gerty's tent. Her fears saw Tom. She reached the screen door in time to see Rickard lift his hat to a disappearing flurry of ruffles. Angry eyes watched Rickard's step swing him away.

From the levee that day, she had a glimpse of the Mexican woman on her knees by the river, rubbing clothes against a smooth stone. A pile of tight-wrung socks lay on the bank. Innes stood and watched her.

"I must remember to speak of her to Gerty," she determined. "She probably does not know that there is a washwoman in camp."

It was a week later before she remembered to speak of the Mexican woman "who could wash." The two women were on their way to their tents from the mess breakfast. Senora Maldonado was leaving MacLean's tent with a large bundle of used clothes under her arm.

"She washes for the men. I'm going to ask her to do my khakis for me. Perhaps this woman would be willing to do all our laundry?"

Gerty had been wondering what she would say to Innes. The speech which needed only an introduction was stirred into the open.

"You must not," her voice trembled with anger, "you must not ask that woman. She is not to be spoken to."

The girl asked her bluntly what she meant.

"You must not give her your washing—must not speak to her. I've not mentioned it before. I—I hoped it would not be necessary. Tom told me not to speak of it."

"Tom told you not to speak of it?"

Not to speak of what?"

"You must have observed—Mr. Rickard?"

The girl's ear did not catch the short pause. "Observed Mr. Rickard?" "The coolness between us. I scarcely speak to him. I don't wish to speak to him."

When had all this happened, Innes demanded of herself? Had she been asleep, throwing pity from outdated dreams?

"I won't countenance a common affair like that." Her eyes, sparkling with anger, suggested jealous wrath to Innes, who had her first hint of the story. She had learned never to take the face value of her sister's verbal coin; it was only a symbol of value; it stood for something else.

The yellow eyes were on the dredge bucket as it swung across the channel, but they did not register. She was angry, outraged; she did not know with whom. With Gerty for telling her, with Rickard, with life that lets such things be. She jumped up. "Oh, stop it!" She rushed out of the tent, followed by a strange bitter smile that brought age to the face of Gerty Hardin.

In her own tent, Innes found excuse for her lack of self-control. She did not like the color of scandal; she hated smudge. Gerty had said the whole camp knew it; knew why the Mexican woman was in camp! She did not trust Gerty in anything else; why should she trust her in that? She would forget Gerty's gossip.

But she remembered it vividly that week as she washed her own khakis; as she bent over the ironing board in Gerty's sweltering "kitchenette." She thought of it as she returned Rickard's bow in the mess tent the next morning; each time they met she thought of it. And it was in her mind when she met Senora Maldonado by the river one day, and made a sudden wide curve to avoid having to speak to her.

LOAN FIGURE FOR COUNTY NOT KNOWN

(Continued from first page)

charge of the campaign in Indiana and will make the appointments.

It is stated that the advertising features to be used in the coming campaign will be similar to those employed in the other four drives. Whippet tanks crawling from county seat to county seat, and in full battle array, with airplanes soaring over-head, with the Jackies band en-tour and with men in khaki explaining that "the job is not over" until the last debt has been paid, and the last soldier brought home, and the government's slate of obligations wiped clean, will announce the features of the campaign.

Loan headquarters are busily engaged in making schedules and itineraries, ascertaining where flying fields, exhibition space and gasoline may be obtained, and in being assured that there is not a city, town, hamlet or even cross roads in the state where Uncle Sam's fighting men will not be extended every courtesy and hospitality the regulations require in connection with these exhibitions. In fact, it is said, if the committee should undertake to assign a tank, a flyer, a band, or some other symbol of the recent emergency, wherever a request has been filed, it would involve a complete withdrawal of the American forces abroad. However, it is the determined policy of the committee to include every county in the eighth federal reserve district in the route for the tanks, and as before, send airplanes to those places having adequate facilities to guarantee the safety of a landing.

The schools will be included in the Victory campaign, with special exercises and instructions now being distributed through the office of the State Superintendent, L. N. Hines.

LOOKED LIKE A SHADOW

And Was Weak And Nervous.
Says Cardui Restored Her Health.

Leavenworth, Ind.—Mrs. Hattie Curtis, of this place, writes: "Before the birth of my first child I was nervous and weakly, had been from the time of my marriage. I was so frail, I looked like a shadow, my skin was yellow, I didn't weigh but one hundred and nine pounds. All were uneasy about me and thought I would get down in bed."

I had heard what a wonderful help Cardui was to weak women and decided to try it. I took Cardui four months regular. I felt like a different woman. When my baby came I had a right hard time, but my strength seemed there to stay, for I was strong and healthy and have been ever since.

I now weigh 167 lbs., and people who knew me when I was so weakly often speak of it. And often people do not recognize me, I look so well. Back of Cardui, the woman's tonic, stands the experience of thousands of people—women, who have been benefited by it; physicians, who have prescribed it in their practice, with good results.

If you suffer, as most women do at times, from female ailments, is not such a medicine worthy of a trial?

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate, Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum. Kolo.

Grows 31 Vegetables in His Home Garden.

Among the striking examples of individual achievement in home gardening that have been reported to the United States Department of Agriculture is that of George A. Williams, an employee of the Government Pension Office in Washington.

Despite the handicap caused by the loss of one arm, Mr. Williams last season grew thirty-one varieties of vegetables in his home garden of slightly less than one-fifth of an

acre. He sold in his neighborhood vegetables worth \$326, in addition to those used by his family of four persons. In fact, the Department of Agriculture does not advise home gardeners to strive for a great variety of crops, but to concentrate their efforts on a few.

Mrs. John W. Steinwedel went to Holton Thursday afternoon to visit her parents, Mr. and Mrs. C. W. Griffiths.

Mr. and Mrs. Frank Trotter have moved into the Hustedt property on Lynn street.
